Emergency arbitration has gained traction across the global arbitration community as an effective means of obtaining urgent interim relief. In July 2010, SIAC was the first Asian institution to introduce the Emergency Arbitrator mechanism. Since then, SIAC has received over 100 applications for the appointment of an Emergency Arbitrator.

Join us for this webinar as leading international arbitration practitioners and arbitrators from Singapore and the Middle East discuss strategic considerations, tips and techniques when applying for emergency arbitration, the enforceability of such measures, and the interplay between emergency arbitration and other legal mechanisms.
