REGISTER HERE

SIAC is now one of the few leading international arbitral institutions that are registered as a permanent arbitral institution (PAI) under Russia's Federal Law on Arbitration. As a PAI, SIAC is authorised to administer international commercial arbitrations for Russia-seated arbitrations, further enhancing benefits to parties who choose to resolve their Russia-related international disputes at SIAC.

This webinar provides a useful introduction to SIAC's rules and case administration, and the advantages for users in Russia-related cases, as compared with other major international arbitral institutions.

Join us for an insightful session with a panel of leading practitioners and arbitrators, who will share their perspectives on the advantages of arbitrating Russia-related commercial disputes at SIAC, including the significance of SIAC's PAI status.
