TOOLS TO MAKE INTERNATIONAL ARBITRATION MORE EFFICIENT: PERSPECTIVES FROM SINGAPORE, SWITZERLAND, AND THE UK

Singapore, Switzerland and the UK are among the world's preferred jurisdictions for arbitration. Join us for a comparative discussion on tools that make arbitration in these jurisdictions attractive. From early dismissal procedure to the tribunal acting as settlement facilitator, Kaplan opening and other (eponymous) tools, practitioners from the three jurisdictions will discuss the pros and cons of the different approaches. The webinar will be followed by a networking session.
